

⚡ QUICK START: THE CLUB DIGITAL LIBRARY

We have moved our car manuals and checklists into a secure digital library. You can view these on your computer or phone anytime.

1. How to Enter

- Step 1: Click the link provided in the club email.
- Step 2: The library will open. You do not need a password or a special account.
- Step 3: Double-click any folder (like MG TF or Jaguar) to see the manuals inside.

2. How to Open a Manual

- Click on the file name you want to read. It will open in a new window.
- To Search: If you are on a computer, hold the Ctrl key and tap F. Type a word (like "Timing" or "Oil") to find it in the manual.

3. How to Save a Copy (Offline Use)

- If your garage has poor Wi-Fi, save a copy to your device so you can read it without the internet.
- On a Computer: Open the document and click the Download icon (the downward arrow ) at the top right.
- On a Smartphone/Tablet: Tap the three dots (...) in the top corner and select "Download" or "Send a copy."

4. Printing for the Workbench

- If you prefer a physical copy that you can get greasy, you can print any document.
- Open the file and click the Printer icon  at the top right.

💡 Pro-Tip for the Garage

Once you have downloaded a manual to your phone or tablet, it stays there. You can flip through the pages just like a physical book, even if your phone signal is weak.
